

COMPLEMENTARY FEED FOR HORSES

1. Description

- Yellowish bran

2. Intended use

CAVALOR PasSand is ideal for horses sensitive for sand obstipation in the digestive system. The psyllium and inert oils in the product are well-known ingredients related to the prevention and treatment of sand impactions, the combination of psyllium with inert oils has an even greater effect than solely using one of those two materials.

In addition to psyllium and inert oils, Cavalor PasSand contains probiotics to support the digestive system. Works on the small and on the large intestine. Promotes and strengthens the good intestinal flora. A good function of the intestinal flora is essential for your horse's health.

3. Directions of use

Dosage per animal per day:

- Preventive dose for horses grazing in sandy pastures:

2 x 50 grams/day - 10 days per month.

- In case sand is detected in the manure:

2 x 100 grams/day during 10 days.

4. Analysis

Crude Protein	7.5%
Crude Fat	1.6%
